CARE Coalition Conference

Friday October 8, 2010

Colony High School • 3850 East Riverside Drive • Ontario, Ca 91761

Put together your Jostens Renaissance team and get ready to build futures in your entire community. We are the MasterMinds for the Future! The Mastermind Principle is defined as the coordination of knowledge and effort of two or more people, who work toward a definite purpose, in the spirit of harmony. "No two minds ever come together without thereby creating a third, invisible intangible force, which may be likened to a third mind," according to noted author Napoleon Hill. From the beginning of Jostens Renaissance this simple but powerful concept has been the driving force behind our success across North America ... Masterminds: Inspiration, Motivation and Innovation. The Eagles of American education and the eagles of American business coming together, working together and staying together ... it is a force that has no equal!

WHY SHOULD I ATTEND?

A powerful MasterMind group is essential to create Jostens Renaissance. It must be based on inspiration, motivation, and innovation so that your community catches the vision and the mission. The goal is to get more results with more students and staff. The more people connected to the "Teaching & Learning process," the greater the success within the school community. Jostens Renaissance will help to build a culture that breeds success for all stakeholders.

Which MasterMinds SHOULD I BRING?

Bring as many Students and Staff as you can to build an outstanding MasterMind group. Look for highly-motivated people who are willing to ask for -- and give -- help and support. They will be the catalyst for your school. We challenge each school to add at least one parent, administrator, and business partner to its Team. It is important to always bring new people to every workshop; they strengthen the fabric of Renaissance and enhance the knowledge, skills and effectiveness of your group.

Special Guest Seminar by Rachel's Challenge. Don't Miss this powerful presentation

Rachel Scott was the first person killed at Columbine High School on April 20, 1999. Rachel's acts of kindness and compassion coupled with the contents of her six diaries have become the foundation for the most life-changing school program in America. Her brother, Craig, was in the library that day and lost two close friends and narrowly escaped death himself. He was the only student at Columbine who was in the library, the worst of the killing zone, and also lost a sibling.

Powerful audio/video footage of Rachel's Challenge holds students spell-bound during a one-hour school presentation that motivates them to positive change in the way they treat others. This is followed by a 45-minute training session involving both adult and student leaders. This is an interactive session that shows how to sustain the momentum created by the assembly. That evening the Rachel's Challenge presenter conducts a powerful session with parents and community leaders. To sustain the positive climate change in a school, Rachel's Challenge offers a year-long curriculum called the Friends of Rachel (FOR) program that continues training students and plugs them into activities that continue the chain reaction of kindness.
